VERSATILITY

ProCounter Hubs broad range of accessories allows a large variety of products to be accommodated.

The system is primarily focussed on driving impulse sales, but it also has functional applications, such as acting as a condiment unit for coffee and meal solutions.

ProCounter Hub is also an ideal solution for high-risk products that need to be protected and managed by staff at the service counter or checkout.

- The customer facing side displays the product and price.
- The rear of the unit holds stock and is protected with sides and a canopy.
- Staff dispense the item requested by the customer.

Ideal for ...

- Liquor Minis
- Technology Accessories
- Batteries etc.

AND FULL SERVICE COMPONENTS

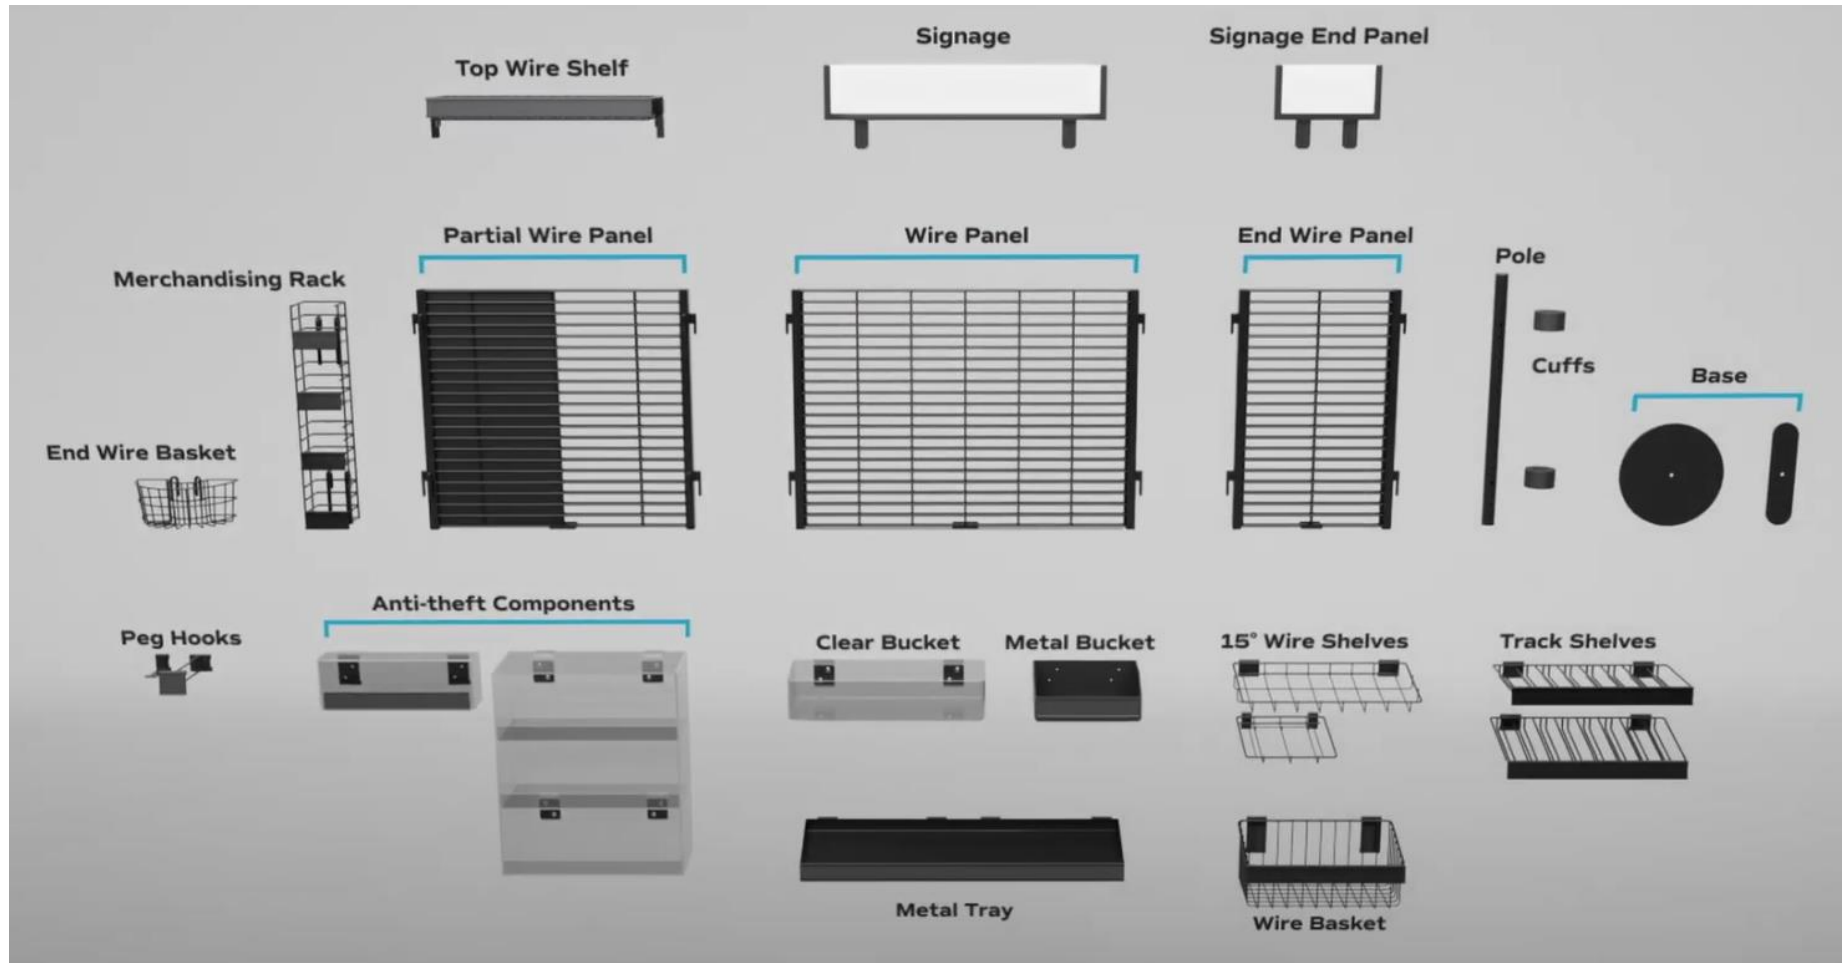

FOR ANTI-THEFT

ProCounter Hub has a large variety of pre-designed and tooled components that can be mixed and matched to achieve the ideal counter solution.

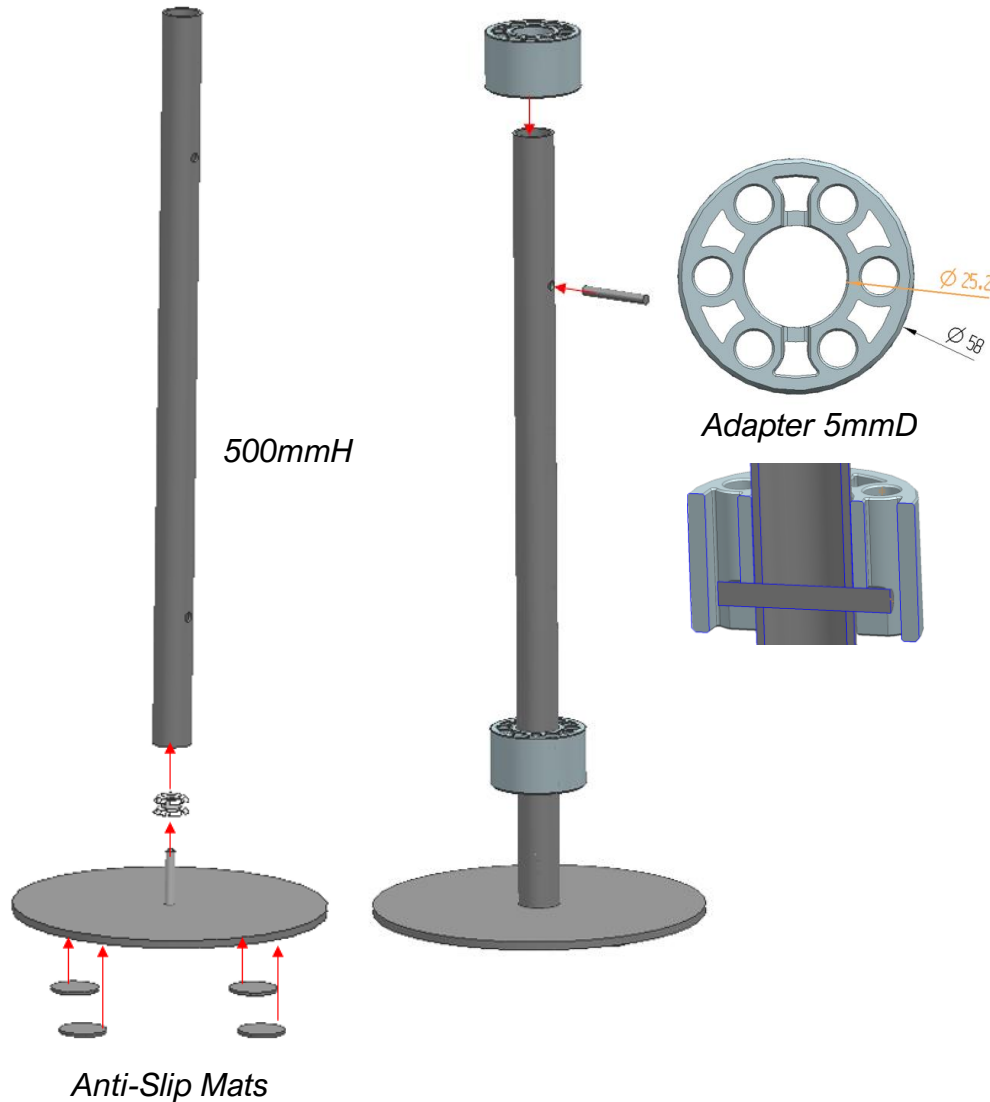

The system can be easily added to or modified at any time, future proofing the solution and protecting your investment.

Custom components can also be designed to accommodate any requirement.
